

# 199K BTU Propane Fired Instant Water Heater

Efficient and reliable, the DI-200KPWH portable propane fired water heater produces a continuous supply of instant hot water. This small footprint unit is compact and durable. Operation is simple: connect your propane, water supply/discharge hoses and electrical. Push the "ON" button and set your water temp. That's all it takes for continuous hot water! The 199,000btu per hour water heater comes complete with:

- Propane fired 199K/btu heater
- Propane regulator
- Propane supply hose
- Temperature controller
- 20 foot power cord
- (1) Hot water discharge
- (1) Water supply

## Performance

Heating Capacity	199,000 BTU/HOUR
Fuel Type	Propane
GPM Water Temp Rise	9.5 GPM@ 35 Degree F 8.4 GPM@ 45 Degree F 5.5 GPM@ 60 Degree F 4.3 GPM@ 77 Degree F 3.3 GPM@ 100 Degree F
Min Inlet Flow Rate	0.26 GPM
Voltage/Phase/HZ	115V— SINGLE—60HZ
Max Power Draw	2.2 amps
Connection Type/Model	15A Standard Plug
Safety Features	Spark Ignition Flame Sensor Flame Roll Out Sensor Draft Inducer Sensor Over Temperature Sensor
Features	Electronic Ignition All Weather Enclosure Small Footprint
Dimensions	41.25"H x 22"W x 18"D
Weight	95LBS
