

SRN 1000 Premiere System

The SRN 1000 Premiere System comes with everything necessary for an immediate privacy barrier including lighted beacons for recognition and weighted ballast bags to ensure structural integrity. Most emergencies leave little time to react, the SRN 1000 Premiere System gives the end user peace of mind knowing it can be deployed within minutes without the assistance of another person. Included is a mobile travel bag to store all parts of the system and provide convenience to the assembler.

Total dimensions: 6 ½ ft. (H) X 12 Ft. (L)

The SRN 1000 Premiere System Includes:

- 3 Tripods (up to 6½' in height)
- 4 Screens (each 6' in length)
- 3 Beacons
