

Losberger RHN Light Weight Rapid Response Inflatable shelter.

RHN Lightweight, Rapid Response Inflatable Shelters

RHN inflatables feature the exclusive Losberger built-in “Plug-in & Go” internal inflation system (included with Model RHN 16S and 24S). When employed, “Plug-in & Go” eliminates the need for any additional exterior pumps or hoses, making the RHN Model 16S and Model 24S the fastest erecting inflatable shelter on the market today. They are a perfect fit for all emergency responders.

Product Description:

For more than 40 years, Losberger RDS has been producing air-supported frame shelters for Emergency Responders and the Military. The RHN series can be fully erected by 1 or 2 people in less than 5 minutes.

Inside the Losberger RHN Light Weight Rapid Response Inflatable shelter, shown in white.

This RHN Series Inflatable Shelter is a lightweight, medium-duty shelter and very robust. It can be staked or weighted and comes with a complete line of accessories. A standard external inflator is included with Models RHN16 and RHN24. However the exclusive built-in “Plug-in & Go” internal inflation system is included with Model RHN16S and 24S, and provides constant air pressure monitoring of the frame for worry-free installation and use. The exclusive air-tight zipper system on each RHN provides unmatched speed of deflation allowing for quick removal and packing. The RHN is a weather tight, wind resistant shelter system that comes with a durable, flame-resistant, polyester fabric cover. It has an integrated and removable floor and pre-fitted guy lines. Multiple shelters can be connected to increase square foot usage.
